To Siti Aisha

Today at 6:16 AM

Dear Siti,

Thank you so much for taking the trouble to write this testimonial. I am so touched by your sincerity. Glad that you are doing well in tutoring. I wish you all the best in your tutoring career.

Warmest Regards,  
Daisy Neo

To whom it may concern

Dear Sir/Madam

I have been using Mrs Ho's teaching system for the last ten years. In fact, SD Tuition Agency was the first Tuition Agency that I came across who coaches their team of tutors. Therefore, any tutor that was sent by her remained with their tutees until they graduated from Primary 6.

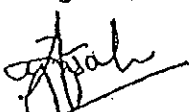

Her teaching system has been proven to be effective in making learning interesting and fun for my tutees. Attending the ongoing training that she conducted, it enables me to be updated with the latest syllabus.

Through my years of working with Mrs Ho, I found her honest, reliable and a conscientious person. She is always there to answer my questions when I encounter any difficulties during my early days of tutoring.

Mrs Ho's dedication has inspired me to be a dedicated tutor myself.

I would recommend the system to anyone who is thinking of tutoring as a part or full-time profession to use. I am confident that you will benefit and continue to benefit under her guidance.

Best regards,

  
Siti Aisha Yusop

Send

Dear Daisy Ho

Thank you for the Tuition Training which I have attended in 2003.

I have benefited greatly from the systematic approach and strategy used. The worksheets that you prepared cover the school syllabus for English, Mathematics and Science. The technique to train students in speed and accuracy using Past Exam Papers has indeed prepared my students to do well for their examinations, showing an improvement in their results.

The sharing of your teaching experience, practical skill and knowledge has helped me to handle different types of difficult students and meet the expectations of parents. This teaching style caters to the needs of most of my students and they continue with me until they graduate in Primary 6.

I have practised and applied what I have learnt and have progressed from there. Your training has laid the foundation for my career as a private tutor these 10 years.

With Appreciation  
 Joan Wong

Dear Mrs Ho,

I want to express my deepest gratitude for all that you have shared with me as I embark my journey as a Tutor. You have been an excellent friend, teacher, mentor and a great inspiration for me. The knowledge you have imparted upon me since 2007 has been a great help and support throughout the years.

I am fortunate to have you share effective teaching materials to support and ease me in my tutoring the primary school pupils. The materials are relevant, effective and meet the needs of pupils of various learning abilities. They are cost effective and save me a lot of time.

I have attached my feedback with regard to the materials that your agency has provided for tutors under SD Tuition Agency.

I truly appreciate and value everything I have learned from you. It will forever remain a major contributor behind my success, achievements and fulfillment.

Thank you once again for your time, support and patience.

Sincerely  
Aishah Bte Rah-mat

Dear Mrs Ho,  
Just to share my feedback:

The comprehensive pack of 'English Worksheets' is very enriching. Consisting of all sections, namely 'Grammar', 'Vocabulary', 'Cloze Passages', 'Synthesis', 'Graphic Stimulus', 'Comprehension MCQ' and 'Comprehension OE', I can pick and choose the number of pages from each section according to each pupil's learning ability and adjust accordingly. Transfer words from the vocabulary section onto name card size board or hard paper, one word per card and let pupils tell the meaning verbally. The pupils may take the card home and write the meaning. Pupils will not find it a chore as they will not look at it as worksheet, but more like a fun activity.

The diagnostic approach to begin every topic in Math is essential. The worksheets provided support that. The worksheets not only allow tutors to spot areas that need more explanation, they also allow pupils to spot their own mistake and express which part of a question or solution pose a challenge to the pupil or needs more explanation. The worksheets for speedtest are morale booster to the pupils this far.

As someone who finds Science a challenging subject to teach, the acronyms that you have shared throughout our termly meetings are undeniably beneficial to both myself and my pupils. Your pointers in questions to ask and how to phrase the questions in the various topics in this subject make me comfortable and confident in arousing interest and understanding in my pupils. Together with the available worksheets from your Agency make teaching more manageable.

The materials path my way. I learn as I teach. And now I am comfortable teaching even without answer sheets.

I will always remember what you said,

**The beginning is always the  
hardest. Do not give up !**

Once again, thank you Mrs Ho.

May your ideas, materials, support and 'touch' continue to lighten up the pathway of more tutors and pupils.
